INTRODUCTORY SECTION

This page is intentionally blank.

December 19, 2014

To the Honorable Mayor, Members of the City Council, and Citizens of the City of Solvang:

The City follows a policy of preparing a complete set of financial statements in conformity with U.S. generally accepted accounting principles after the end of each fiscal year. This report is published to fulfill that policy for the fiscal year ended June 30, 2014.

Management of the City of Solvang assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that the City has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the City's financial statements are free of material misstatements.

The firm of Terry E. Krieg, Certified Public Accountant, has issued an unmodified independent auditor's report on the City of Solvang's financial statements for the fiscal year ended June 30, 2014. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the City of Solvang

Solvang, meaning "Sunny Field," was founded in 1911 by a group of Danish educators from the Midwest who were in search of a site for a Danish-type folk school. They liked what they saw and envisioned the location of the potential town, nestled between the Santa Ynez and San Rafael mountain ranges as an ideal place to launch the school and where settlers could develop a Danish Colony that we now know as Solvang. Although Solvang has since developed into one of California's main tourist attractions, its many Danish-American residents continue to perpetuate their Danish heritage as seen by the architectural style in the downtown tourist area. The City is located inland along the Central Coast, some 45 miles north of Santa Barbara, in the historic Santa Ynez Valley.

The City was incorporated on May 1, 1985. It subsequently transitioned from a General Law City to a Charter City in November 2006. Becoming a "Charter City" means we have more "local home rule" authority than cities that incorporate under the "general laws" of the State of California. The Charter is the City's "Constitution," and any changes must be approved by the voters.

The City operates under the “Council-Mayor-Manager” form of government. Policy making and legislative authority are vested in the City Council consisting of the Mayor and four other elected Council members. The Council is responsible for, among other matters, passing ordinances, adopting the City Budget, appointing committees, and hiring the City Manager and City Attorney. The City Manager is responsible for carrying out the policies and ordinances of the City Council, overseeing the daily operations of the City, and appointing other employees and otherwise managing daily operations of the City. The Council members are elected to four-year staggered terms and with the election of 2008, we transitioned from an appointed Mayor to an elected Mayor with a two-year term, who serves as an equal member of the Council.

The City of Solvang provides a full range of municipal services, including contracted police services, the construction and maintenance of City streets, storm drains, bridges and similar infrastructure type assets, park maintenance and community recreation activities. Water, wastewater and transit services are provided through the use of an enterprise fund or business-type fund structure.

The annual budget serves as the foundation for the City of Solvang’s financial planning and control system. All departments of the City submit requests for appropriations to the Administrative Services Director each year. The Administrative Services Director and City Manager use these requests as a starting point for developing a proposed budget. Together, they present a proposed budget to the Finance Committee, which consists of two appointed members of the City Council. Once a final draft budget is achieved, it is presented to the City Council. The Council holds public hearings on the proposed budget and ultimately adopts a formal budget. The budget is adopted by fund, function, department and object. The Council periodically reviews during the fiscal year the City’s actual financial activity in relationship to the original budget, and as necessary amends the original budget to reflect changing conditions.

The general fund’s budgetary comparison, deemed a major fund under the new reporting standards, is presented as required supplementary information in a separate section of this report immediately following the notes to the financial statements. For the City’s other governmental-type funds with adopted budgets, a budget to actual comparison schedule is presented as optional information in the section of this report containing combining statements and individual fund schedules.

Local Economy

The City’s economy largely depends on tourism, which generates a large portion of the City sales tax and all of the transient occupancy tax (TOT) revenues that account for a major part of the City’s revenue stream. Property tax revenues are another large source of revenue for the City. Major attractions for visitors to the City include the City’s Danish themed village with unique shops, inns, bakeries, European style streets and architecture, cafes, local wineries, art galleries, golf courses, equestrian and other livestock production, the Santa Ines Mission, and the Elverhoj Museum.

This year the City saw increases in both property tax and sales tax revenues. Sales tax has become more diverse over the years in terms of its origin, however, our top three sales tax by business categories remain as food products, general retail and construction, in that order. We are projecting these revenue sources to show similar growth in fiscal year 2015. Hotel taxes increased this year as the occupancy rate increased about 1%, and as a result of the increase in transient occupancy tax from 10% to 12%, that went into effect in January 2013.

While we have seen increasing trends in revenues, the City does not expect any major changes in our financial future and continues to spend within its means. The economy is slowly recovering from the recession, however the City continues to take a very conservative approach in the budgeting process. We strive to operate within current revenue streams and are careful not to use reserves. Staff has an awareness of the challenges we face and continues to be conservative in their spending.

Long Term Financial Planning and Major Initiatives

This year the City completed about \$1.5 million in capital projects. For fiscal year ending 2015 the City has budgeted approximately \$5 million for capital projects, mostly for water and engineering. An additional \$25.7 million in capital projects are planned to be completed by the year 2024. These projects include about \$9.1 million in public works projects, \$415 thousand for parks and recreation, \$1.1 million for transit, \$13.4 million for water and \$1.5 million for wastewater system improvements.

The general fund ended fiscal 2014 with approximately a \$7.3 million fund balance, with \$3.3 million committed for emergency reserves, and approximately \$3.7 million remained unassigned. There is approximately \$3 million in Traffic Mitigation Impact Fees, Transportation Sales Tax Ballot Measures A, and Local Transportation Reserves, which will specifically be used for future projects; mainly street infrastructure, street improvements, street maintenance, and sidewalk projects.

The City anticipates financing the water and wastewater projects with a combination of existing resources held by these enterprises and the issuance of bonds, however the current drought situation in California requires additional purchases of water which does impact available reserves. The Water fund has struggled to keep up with expenses since the inception of State Water and has had to regularly increase water rates since 1990 in order to secure the financial stability and ensure the fiscal health of this fund.

In fiscal year 2011 the City underwent a study for water and sewer to evaluate the utility rates and connection fees in an effort to ensure that we will be able to sustain the maintenance, capital infrastructure and required reserve levels for these funds and to ensure long term fiscal stability. The study was concluded in fiscal year 2011/12 and rate increases for a five year period were recommended and adopted by the City Council. The new rates were effective starting November 21, 2011 and brought in additional revenue to the enterprise funds to help support completing the necessary capital improvements in addition to future bond financing.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Solvang for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2013. The City has received this award for 20 of the last 21 years. In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized CAFR that satisfied both generally accepted accounting principles and applicable legal and program requirements.

A Certificate of Achievement is valid for a one-year period only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

There are a number of benefits from participating in this program beyond simply gaining recognition for our efforts. We believe that by continually striving for excellence in meeting the program standards and goals, we have the ability to produce quality reports as well as receive comments for improvements from other municipal finance professionals. This allows us to gain a "fresh" perspective and continually improve in our reporting for the benefit of the City and the public at large.

The preparation of this report would not have been possible without the efficient and dedicated services of the *entire staff* of the Administrative Services and Finance department. We are very proud of our teamwork here and would like to express our appreciation to all members of the departments who assisted and contributed to the preparation of this report and their effort throughout the year to ensure the integrity of the financial records. A special "Thank You" to Fred Lageman, Parks and Recreation Director, for your outstanding report cover this year and for the many years prior. A special "Thank You" also goes to Dr. Kenneth Harwood, a local economist for providing his insights on the local economy. Credit must also be given to the Mayor and the Members of the City Council, and the City Manager for their continued support for maintaining the highest standards of professionalism in the management of the City of Solvang's financial affairs.

Respectfully submitted,

Independent Auditor's Report

Honorable Mayor and Members of the City Council
City of Solvang
Solvang, California

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Solvang, California, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City of Solvang's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with audited standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements,

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Solvang, California as of June 30, 2014, and the respective changes in its financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 15 through 27 and the Budgetary Comparison Schedules and Schedule of Funding Progress on pages 59 through 62 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

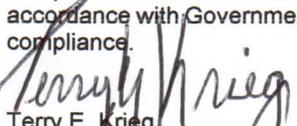

Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Solvang's basic financial statements. The accompanying nonmajor fund combining financial statements, budget and actual schedules, schedules of capital assets, and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The nonmajor fund combining financial statements, budget and actual schedules, and schedules of capital assets is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the nonmajor fund combining financial statements, budget to actual schedules, and schedules of capital assets is fairly stated, in all material respects, in relation to the basic financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, I do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, I have also issued my report, dated December 19, 2014, on my consideration of the City of Solvang's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City of Solvang's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the City of Solvang, we offer readers of the City of Solvang's financial statements, this narrative overview and analysis of the financial activities of the City of Solvang for the fiscal year ended June 30, 2014. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 3-6 of this report.

Financial Highlights

- The general fund reported a fund balance of \$7.3 million at the end of the 2014 fiscal year; an increase of \$1,084,154 or 17.3% over fiscal year 2012-2013.
- Citywide, the total net position increased by \$1.12 million or 2.8% higher than 2012-2013 after conducting all operations and programs. The net position totaled \$40.6 million dollars at year-end. Of that amount, \$15.9 million (the unrestricted net position) may be used to meet the City's ongoing obligations and operating expenses for the next fiscal year.
- The City's Governmental activities reported net position of \$22.9 million dollars. Of the \$22.9 million dollars, \$7.8 million remains unrestricted and available.
- Overall, Citywide revenues from governmental activities, grants and taxes increased \$122 thousand compared to the 2013 fiscal year. This increase is a result of higher revenues in taxes and charges for services.
- Impact Fees ended 2014 with a fund balance of \$2.58 million; an increase of 8.6% from 2013. The increase is the result of additional impact fees collected during the year as a result of the continued development of additional phases of the Skytt Mesa housing project.
- The Proprietary Enterprise funds ended the fiscal year with a net position of \$17.6 million (including the funds' net investment in capital assets); a 2% increase from fiscal year 2013.
- The City's other non-major governmental funds ended 2014 with a fund balance of \$558.7 thousand dollars. The decrease of approximately \$115 thousand is primarily caused by increases in Public Works transportation and road related projects, and decreases in gas tax revenues and less capital projects.

Management's Discussion and Analysis

Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to the City of Solvang's basic financial statements. The City of Solvang's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) the notes to financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Solvang's finances, in a manner similar to a private-sector business.

The *statement of net position* presents financial information on all of the City of Solvang's assets and liabilities, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Solvang is improving or deteriorating.

The *statement of activities* presents information showing how the City of Solvang's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave). Both of the government-wide financial statements distinguish functions of the City of Solvang that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of Solvang include general government, public safety, highways and streets, planning and economic development, and culture and recreation. The business-type activities of the City of Solvang include water, wastewater and transit operations.

The government-wide financial statements include not only the City of Solvang itself (known as the *primary government*), but also the Solvang Conference and Visitor Bureau, a separate operation for which the City of Solvang provides over 80% of its funding annually. Financial information for this component unit is reported separately from the financial information presented for the primary government itself. The government-wide financial statements can be found on pages 31-32 of this report.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Solvang, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Solvang can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Management's Discussion and Analysis

Governmental Funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Solvang maintains ten individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, and the impact fee fund, which are considered to be major funds. Data from the other eight governmental funds are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements in the combining and individual fund statements and schedules section of this report.

The City of Solvang adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 33-35 of this report.

Proprietary Funds. The City of Solvang maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City of Solvang uses enterprises funds to account for its water, wastewater and transit operations. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City of Solvang various functions. The City of Solvang uses an internal service fund to account for the replacement of its fleet of vehicles and major equipment. Because these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water, wastewater and transit operations, all of which are considered to be major funds of the City of Solvang. Conversely, the internal service fund is a single, presentation in the proprietary fund financial statements.

Management's Discussion and Analysis

The basic proprietary fund financial statements can be found on pages 36-39 of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are *not* reported in the government-wide financials statements because the resources of those funds *are* not available to support the City of Solvang own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The City of Solvang maintains one type of fiduciary fund. The *Agency fund* reports resources held by the City of Solvang in a custodial capacity for individuals, private organizations, and other governments. The City of Solvang maintains one Agency fund on behalf of the Santa Ynez Valley Tourism Business Improvement District (District), as it collects the revenue from the government agencies, and then remits the funds to the District.

The fiduciary fund financial statement can be found on page 40 of this report.

Notes to the Financial Statements. The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 41-56 of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning the City of Solvang's progress in funding its obligation to provide Other Post Employment Benefits (OPEB) to its employees. Required supplementary information can be found on pages 59-62 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds and internal service funds are presented immediately following the required supplementary information on OPEB. Combining and individual fund statements and schedules can be found on pages 65-78 of this report.

Government-wide Overall Financial Analysis

As noted earlier, net position over time may serve as a useful indicator of a government's financial position. In the case of the City of Solvang, assets and deferred outflows of resources exceeded liabilities by \$40,614,771, at the close of the most recent fiscal year.

Management's Discussion and Analysis

City of Solvang Net Position

	<u>Governmental Activities</u>		<u>Business-type Activities</u>		<u>Total</u>		<u>Total Percentage Change</u>
	<u>2013</u>	<u>2014</u>	<u>2013</u>	<u>2014</u>	<u>2013</u>	<u>2014</u>	
Current and other Assets	\$ 10,808,831	\$ 11,942,861	\$ 8,496,022	\$ 8,710,842	\$ 19,304,853	\$ 20,653,703	7%
Capital Assets	\$ 12,342,031	\$ 12,057,865	\$ 9,346,335	\$ 9,512,247	\$ 21,688,366	\$ 21,570,112	-1%
Total Assets	\$ 23,150,862	\$ 24,000,726	\$ 17,842,357	\$ 18,223,089	\$ 40,993,219	\$ 42,223,815	3%
Long-term liabilities	\$ 454,457	\$ 563,676	\$ 9,528	\$ 9,875	\$ 463,985	\$ 573,551	24%
Other liabilities	\$ 482,250	\$ 456,146	\$ 553,149	\$ 579,347	\$ 1,035,399	\$ 1,035,493	0%
Total Liabilities	\$ 936,707	\$ 1,019,822	\$ 562,677	\$ 589,222	\$ 1,499,384	\$ 1,609,044	7%
Net Position:							
Invested in capital assets	\$ 12,342,031	\$ 12,057,865	\$ 9,346,335	\$ 9,512,247	\$ 21,688,366	\$ 21,570,112	-1%
Restricted	\$ 3,061,331	\$ 3,155,589	\$ -	\$ -	\$ 3,061,331	\$ 3,155,589	3%
Unrestricted	\$ 6,810,793	\$ 7,767,450	\$ 7,933,345	\$ 8,121,620	\$ 14,744,138	\$ 15,889,070	8%
Total Net Position	\$ 22,214,155	\$ 22,980,904	\$ 17,279,680	\$ 17,633,867	\$ 39,493,835	\$ 40,614,771	3%

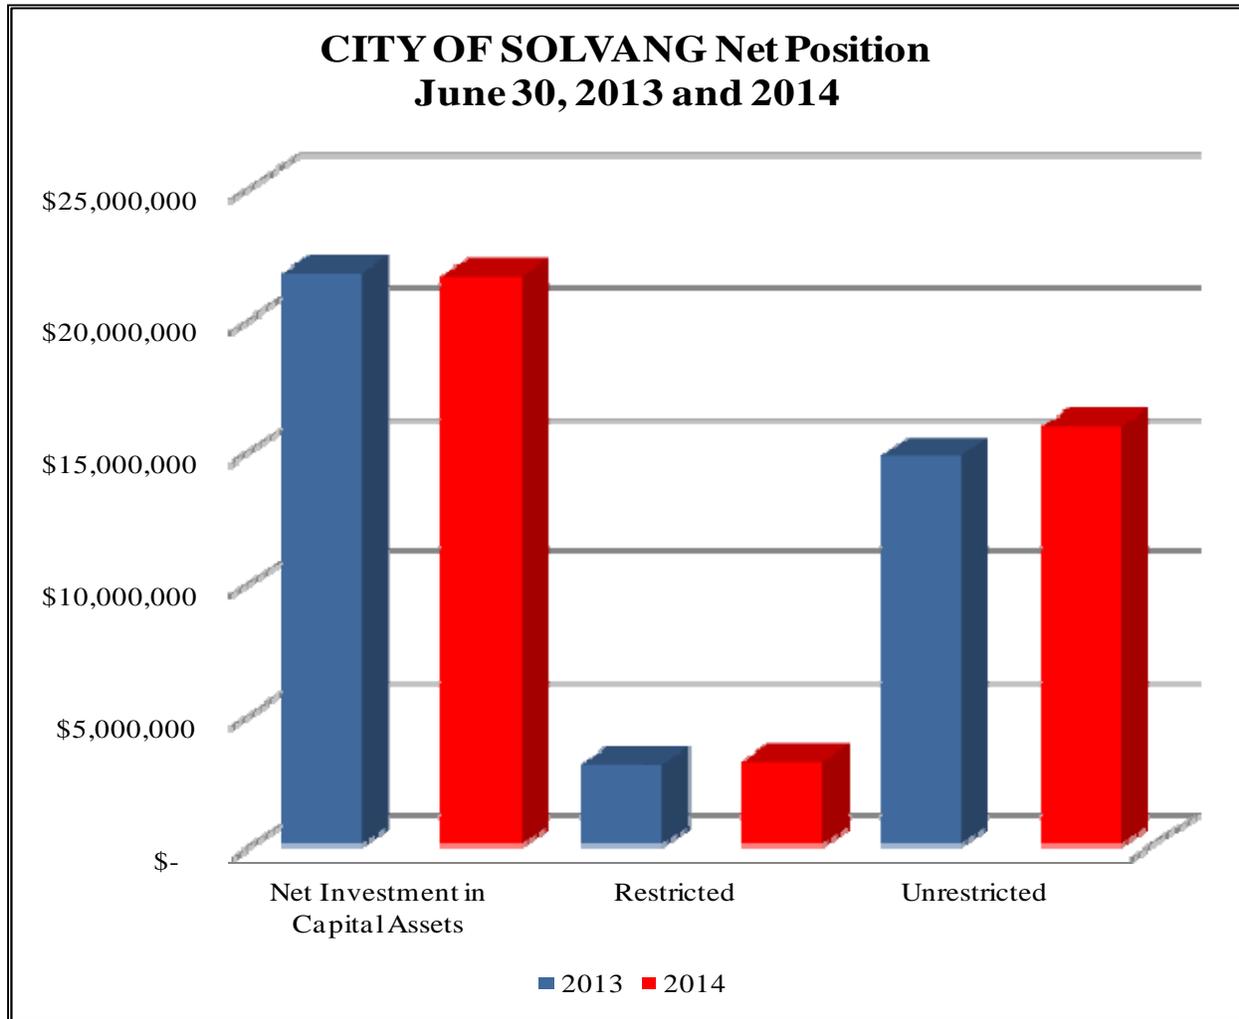

By far, the largest portion of the City of Solvang's position (53.1%) reflects its investment in capital assets (e.g. land, buildings, machinery, equipment, vehicles, and infrastructure), less any related outstanding debt that was used to acquire those assets. The City of Solvang uses these capital assets to provide a variety of services to its citizens. Accordingly, these assets are not available for future spending.

An additional portion of the City of Solvang's net position (7.7%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$15.8 million is unrestricted, and may be used to meet the government's ongoing obligations to its citizens and creditors.

At the end of the current fiscal year, the City of Solvang is able to report positive balances in all reported categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

Management's Discussion and Analysis

The City of Solvang's overall net position increased by \$1.12 million from the prior fiscal year. The reasons for this overall increase are discussed in the following sections for governmental activities and business-type activities.

Governmental Activities. Taxes are the primary source of revenue for governmental activities and account for 75% of all revenues. The tax category includes property tax, sales tax, transient occupancy tax (TOT) and other taxes.

Solvang is a tourist community and the largest portion of its tax revenues come from transient occupancy tax (local hotel tax). These taxes generate 43% of all governmental-type revenues. In 2014, local hotel tax increased \$439,797 or 15% from fiscal year 2012-13. Part of this increase is due to an increase in the TOT from 10% to 12% of the room rate, approved by Solvang voters in November 2012. In addition, occupancy of rooms increased approximately 1% in fiscal year 2013-2014, to a 10 year high of 68.38%.

Management's Discussion and Analysis

The City's governmental-type operating expenses consist of public safety, culture and recreation, public works, general government and community development.

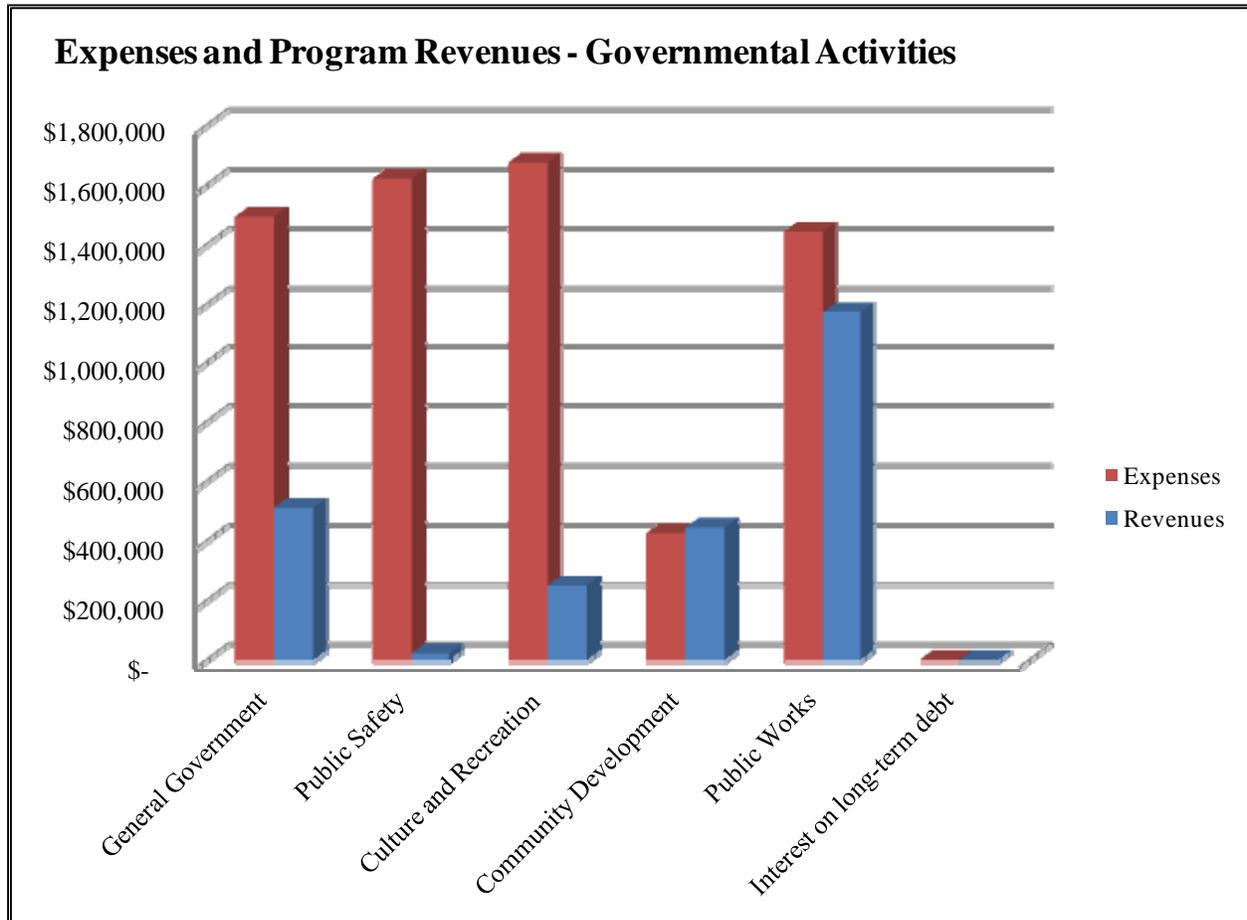

When all operations were concluded, the governmental activities function generated an increase of \$767 thousand in net position primarily due to an increase in transient occupancy taxes and charges for services.

Management's Discussion and Analysis

Business-type Activities. For the City of Solvang’s business-type activities, the City’s net position increased slightly, to end the year at \$17,633,867. The increase in net position for business-type activities (water, wastewater, and transit funds) was \$354,187 from the prior fiscal year. An increase in the rates for water and wastewater (year three of five of potential increases) accounts for part of the increase in charges for services for water and wastewater. Capital Grants and Contributions greatly increased in the areas of water, wastewater and transit. These contributions are due in part to the ongoing development of the Skytt Mesa housing development project, (resulting in additional connection fees) and additional federal funds for capital assets in Transit.

Financial Analysis of Governmental Funds

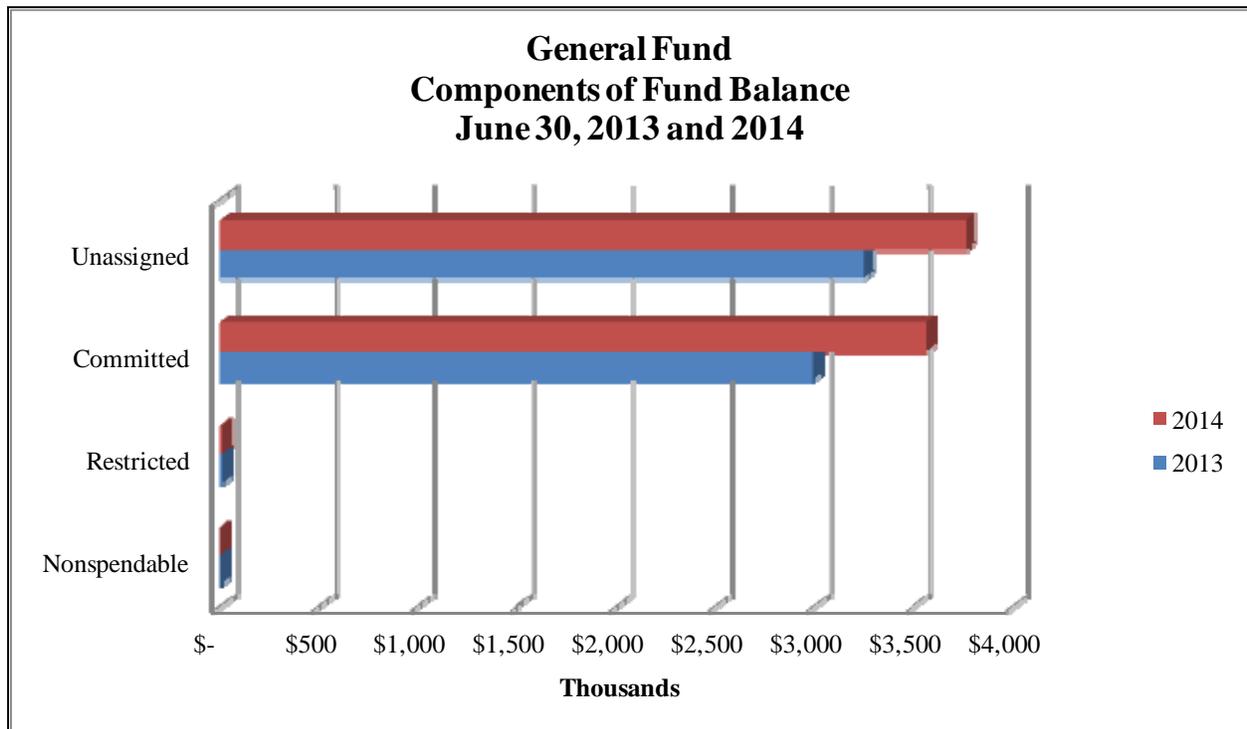

As noted earlier, the City of Solvang uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Management's Discussion and Analysis

Governmental Funds. The focus of the City of Solvang’s governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Solvang’s financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government’s net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the City of Solvang itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the City of Solvang’s Council.

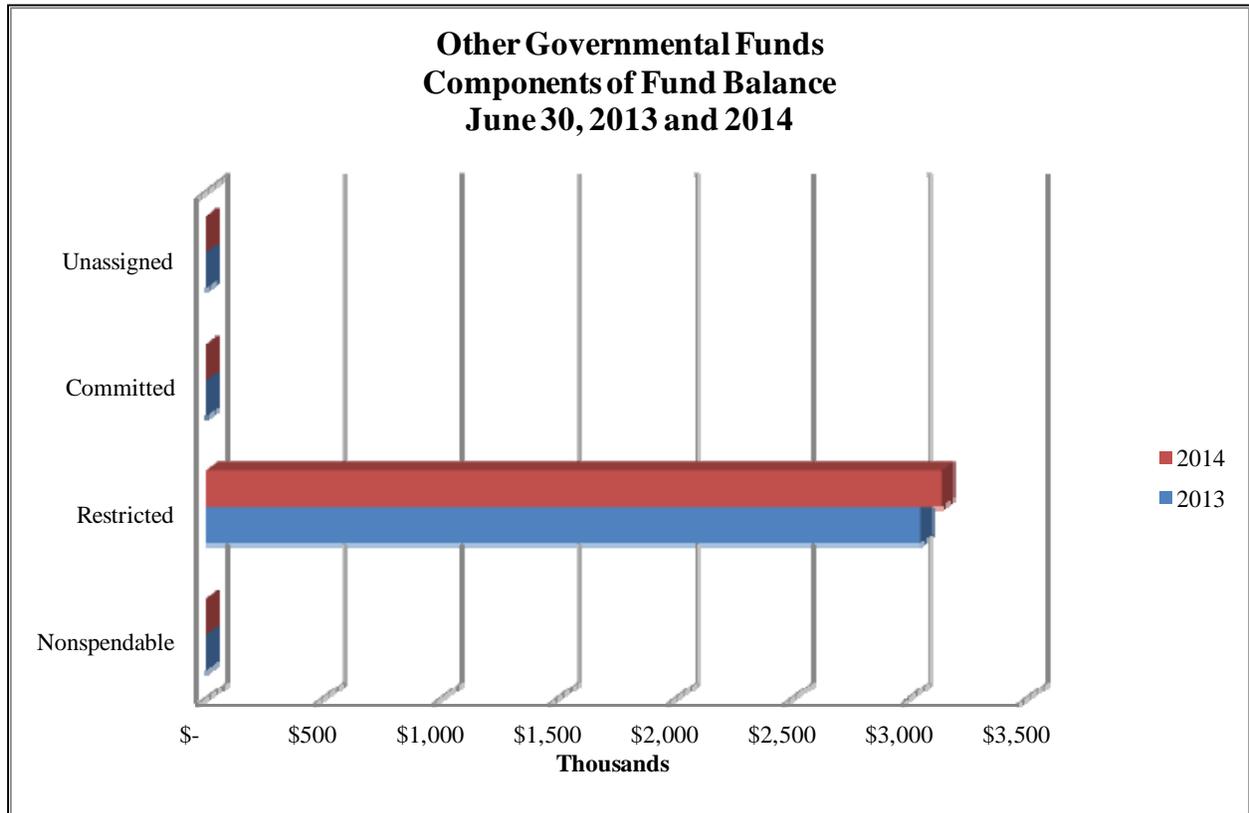

At June 30, 2014, the City of Solvang’s governmental funds reported combined fund balances of \$10,495,105, an increase of \$1,174,412 in comparison with the prior year. Approximately 36% of this amount (\$3,767,385) constitutes unassigned fund balance, which is available for spending at the government’s discretion. The remainder of the fund balance is either nonspendable, restricted, or committed, to indicate that it is 1) not in spendable form (\$700), 2) restricted for particular purposes (\$3,156,327), or 3) committed for particular purposes (\$3,570,693).

The general fund is the chief operating fund of the City of Solvang. At the end of the current fiscal year, unassigned fund balance of the general fund was \$3,767,385, while total fund balance increased to \$7,352,069.

Management's Discussion and Analysis

The increase in governmental funds from fiscal year 2012-13 to 2013-2014, was due primarily to increases in transient occupancy taxes, sales taxes, and program revenues.

Proprietary Funds. The City of Solvang's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position for the Water and Wastewater funds at the end of the year were \$3,066,634 and \$4,578,071 respectively. The total growth in net position for Water was \$85,278, and Wastewater was \$105,455. Growth in the Water Fund and Wastewater funds can be contributed to additional capital contributions as a result of the ongoing development of Skytt Mesa.

Transit operations unrestricted net position totaled \$476,915, an increase of \$102,040 from fiscal year 2013-14. Transit operations overall net position increased by 20% to end the fiscal year at \$971,404, primarily due to an increase in capital contributions – money from federal programs to assist with transit operations.

Management's Discussion and Analysis

General Fund Budgetary Highlights

Original budget compared to final budget. There was no need for any significant amendments (greater than \$100 thousand), to increase either the original estimated revenues or original budgeted appropriations. Generally, the movement of the appropriations between departments was not significant.

Final budget compared to actual results. The most significant differences between estimated revenues and actual revenues were as follows:

Revenue Source	Final Estimated Revenues	Actual Revenues	Difference
Licenses and Permits	\$ 132,000	\$ 280,157	\$ 148,157
Transient Occupancy Taxes	\$ 3,290,000	\$ 3,435,309	\$ 145,309
Sales Taxes	\$ 1,075,000	\$ 1,153,845	\$ 78,845

The increase in transient occupancy tax revenue is due primarily due to the increase in the rate from 10% to 12%, in addition to a slightly higher occupancy rate in fiscal year 2013-14.

A review of actual expenditures compared to the appropriations in the final budget yields no significant variances. Overall, actual expenditures were less than budgeted expenditures by \$454,015.

Capital Asset and Debt Administration

Capital assets. The City of Solvang's investment in capital assets for its governmental and business-type activities as of June 30, 2014, amounts to \$21,570,112 (net of accumulated depreciation). This investment in capital assets includes land, buildings, machinery, equipment, vehicles, park facilities, roads, highways, bridges, and the wastewater treatment plant. The investment in capital assets decreased by less than 1%. Major capital asset events during the current fiscal year included the following:

Percolation Pond Bank Restoration	\$ 557,620
Two New Transit Buses and Bus Stop Improvements	\$ 164,446
Alnor Alley Upgrade	\$ 163,414
Overlay - Crack Sealing	\$ 136,789
HCA Park Upgrades	\$ 84,621
Well 21 Upgrade, River and Upland Wells Projects	\$ 84,376
Fredensborg Canyon Sewer Line	\$ 51,875

Management's Discussion and Analysis

Additional information on the City of Solvang's capital assets can be found in Note 4.D on pages 49-51 of this report.

Long-term Debt. Under insurance arrangements, the City is self-insured for the first \$50,000 for each workers compensation claim and \$20,000 for each general liability claim and \$5,000 for property damage. The statement of net position also shows no liability for 2014 for estimated claim obligations and has no current obligation for 2014. This liability was fully funded and paid in 2014, and there were no pending claims at the end of the fiscal year.

The City has a take or pay water purchase agreement with the Santa Ynez River Water Conservation District, Improvement District No. 1 (ID No.1) where the City must make annual payments for the water whether or not it takes a single drop. ID No 1. has pledged its water sale revenue from Solvang for repayment of its long-term debt. Solvang has an ongoing commitment to buy water from ID No 1, but the bonded debt is that of ID No. 1 and not the City of Solvang. The agreement requires annual payments until 2035.

Additional information on the City's long-term debt can be found starting on page 51 of the notes to the financial statements

Economic Factors and Next Year's Budget and Rates

The following economic factors currently affect the City of Solvang and were considered in developing the 2014-15 fiscal year budget:

- In June 2014, the City adopted a balanced budget with adequate resources available to fund proposed expenditures. We do not anticipate the reduction of any public services or staff in the coming year. We anticipate only using our unassigned fund balance for those projects included in the Capital Improvement Program.
- The unemployment rate for the City of Solvang is currently 2.0 percent, down approximately 1% from a year ago.
- An annual increase in water rates each November from fiscal year 2011-12 through fiscal year 2015-2016, will ensure that our citizens pay an equitable rate, and that our infrastructure will have funding to support maintenance and capital replacement costs, as well as adequate funding of reserves.
- We are anticipating current and future expenditure increases due to additional state and federal water quality mandates.
- As property values slowly increase, the taxable assessed value as a percentage of estimated actual value in property assessments increases, and contributes to the increase in City revenues.

Management's Discussion and Analysis

- As the economy slowly recovers from the Great Recession, economic indicators point to increased travel and tourism, which will hopefully result in increased transient occupancy taxes and revenue for the City.
- On the expenditure side, increases are expected in pension and other employee benefit costs. These rates will be increasing 5-6% over the next 4 years as CalPERS adjusts their methodology and assumptions.
- The City of Solvang relies heavily on tourism, with over 1.5 million visitors annually, requiring twenty-four hour services for residents and non-residents alike.
- The State's budget remains a source of concern as it is always surrounded by uncertainty, however the State's finances continue to improve as a result of increased sales and property taxes.

Requests for Information

This financial report is designed to provide a general overview of the City of Solvang's finances for all those with an interest in the government's finances. If you have questions about this report or need additional financial information, contact the Administrative Services Director at:

CITY OF SOLVANG
Reconciliation of the Statement of Revenues, Expenditures
and Changes in Fund Balances of Governmental Funds
To the Statement of Activities
June 30, 2014

Net Change in Fund Balances - Total Governmental Funds \$ 1,174,412

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays \$533,228 exceed depreciation (\$787,417) in the current period. (254,189)

Increases in liabilities for other post employment benefits (OPEB) do not require the use of current financial resources and are therefore not reported in the funds (81,336)

Some expenses in the statement of activities for noncurrent liabilities such as long-term compensated absences do not require the use of or provide current financial resources and, therefore, are not reported as expenditures or revenues in the governmental funds. (27,883)

Internal service funds are closed by charging additional amounts or reducing charges to participating governmental activities to completely cover the internal service fund's costs for the year. (18,562)

Certain revenues are deferred in the funds until collected and available, and are reported as revenues in the statement of activities when earned. (25,693)

Net differences (407,663)

Change in Net Position of Governmental Activities \$ 766,749

The notes to financial statements are an integral part of this statement.

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2014

1. Summary of Significant Accounting Policies

A. Reporting Entity

The City of Solvang is a municipal corporation governed by an elected five-member City Council. The accompanying financial statements present the government, its component units, and entities for which the government is considered to be financially accountable. The Solvang Joint Powers Financing Authority is a legally separate corporate entity for which the City is financially accountable and is governed by the elected City Council. The Authority was formed to provide a method of financing public improvements. The financial activities of the Authority are blended with those of the City and are reported in the City's governmental funds, and as capital assets of the City and debt obligations of the City. The Solvang Conference and Visitors Bureau is a nonprofit benefit corporation established to promote tourism within the city; and it is reported as a discretely presented component unit because of its financial interdependency with the City of Solvang. The City provides over 80 percent of the financial resources of the Conference and Visitors Bureau. Separate financial statements are not available for these component units.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the City. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*. Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the *proprietary fund financial statements*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims are recorded only when payment is due. Assets in the governmental funds that do not meet the availability criterion for recognition as revenue in the governmental funds are classified as a deferred inflow of resources as those resources are not available for spending in the current period.

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2014

Note 1. Summary of Significant Accounting Policies (continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Property taxes, sales taxes, transient occupancy taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period are considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government. The City reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The *Impact Fee Fund* is a special revenue fund used to account for impact fees restricted by law to use only for the specific purpose of the fee.

The City reports the following major proprietary funds:

The *water fund* accounts for the operations of the City's water treatment and distribution system.

The *wastewater fund* accounts for the operation of the City's wastewater treatment plant and collection facilities.

Additionally, the City reports the following fund type:

The internal service fund is used to account for the City's vehicle fleet, major equipment and services provided to other City departments on a cost reimbursement basis.

The City applies all applicable Financial Accounting Standards Board (FASB) pronouncements issued before November 30 1989 in accounting and reporting for its proprietary operations, and the provisions of GASB Statement Number 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's water and wastewater function and other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise and internal service funds are charges to customers for sales and services. Operating expenses for the enterprise and internal service funds include the costs of sales and services, administration costs and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2014

Note 1. Summary of Significant Accounting Policies (Continued)

D. Assets, Liabilities, and Net Position

1. Deposits and Investments

The City is authorized by its most recent investment policy to invest in the State of California Local Agency Investment Fund, U.S. Treasury bonds, bills, and notes, obligations issued by U.S. Government agencies, banker's acceptances, repurchase agreements, commercial paper, money market funds, time deposits and demand accounts.

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short term investments with original maturities of three months or less from the date of acquisition.

Investments for the City are reported at fair value. The State Local Agency Investment Fund is operated in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable government funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade and property tax receivables are not shown net of an allowance for uncollectibles.

Property taxes are levied as of March 1 on property values assessed as of the same date. State statutes provide that the property tax rate be limited generally to one percent of market value, be levied by only the County, and be shared by applicable jurisdictions. The County of Santa Barbara collects the taxes and distributes them to taxing jurisdictions on the basis of assessed valuations subject to voter-approved debt. Property taxes are due on November 1 and March 1, and become delinquent on December 10 and April 10. The City receives property taxes pursuant to an arrangement with the County known as the "Teeter Plan". Under the plan, the County assumes responsibility for the collection of delinquent taxes and pays the full allocation to the City. The City recognizes property tax revenues in the fiscal year in which they are due to the City.

3. Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when used or consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Such prepayments are accounted for using the consumption method in the governmental funds.

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2014

Note 1. Summary of Significant Accounting Policies (Continued)

D. Assets, Liabilities, and Net Position (Continued)

4. Capital Assets

Capital assets include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items). They are reported in the applicable governmental-type or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (\$100,000 for infrastructure type assets) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Under the GASB 34 Implementation Rules, the City is a Phase 3 entity and was not required to record infrastructure assets existing or acquired prior to July 1, 2002 at the date these new financial reporting standards were implemented. The City has not recorded such assets. The costs of normal maintenance and repairs that do not add to the value of asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of the business-type activities is included as part of the capitalized value of the assets constructed. Property, plant, and equipment of the City are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and improvements	7 - 50
Public domain infrastructure	50
System infrastructure	50
Vehicles and equipment	5 - 10

5. Compensated Absences and Other Post Employment Benefits

It is the government's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is a liability for a portion of unpaid accumulated sick leave since the City does have a policy to pay certain amounts when employees separate from service with the City. All vacation pay and applicable sick leave is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The City accrues each year as a liability in the government-wide financial statements a liability for the difference between the actuarially determined annual required contribution to its OPEB Plan and the amounts actually contributed by the City for each fiscal year.

6. Long-term Obligations

In the government-wide financial statements, and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net position.

7. Fund Balances – Governmental Funds

Fund balances for governmental funds are reported in classifications based primarily on the extent to which the City is bound to honor constraints about the specific purposes for which amounts in those funds can be spent. These classifications include (1) nonspendable, (2) restricted, (3) committed, (4) assigned and (5) unassigned amounts.

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2014

Note 1. Summary of Significant Accounting Policies (Continued)

D. Assets, Liabilities, and Net Position (Continued)

7. Fund Balances – Governmental Funds (Continued)

Nonspendable amounts generally are items not expected to be converted into cash such as inventories and prepaid items. Restricted amounts include those where constraints placed on the uses of the resources are externally imposed by grantors, contributors, other governments or by laws or regulations. Committed amounts are those that can only be used for a specific purpose as determined by the City Council. Such committed amounts may be redeployed for other uses only by the direction of the City Council. Commitments are established, modified, or rescinded by the City Council adopting such action by resolution. Assigned amounts are fund balance amounts constrained by the City's intent to be used for specific purposes as determined by the City Manager or City Administrative Services Director. Unassigned fund balance amounts are the residual amounts reported in only the general fund.

When expenditures are incurred for which both restricted and unrestricted (committed, assigned or unassigned) amounts are available, the City considers restricted amounts to have been spent first. When expenditures are incurred for which any class of unrestricted fund balance could be used, the City considers committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts.

8. Comparative Data

Comparative total data for the prior year have been presented in order to provide an understanding of the changes in net position. Also, certain amounts presented in the prior year data have been reclassified to be consistent with the current years' presentation.

2. Reconciliation of Government-Wide and Fund Financial Statements

A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Position

The governmental fund balance sheet includes reconciliation between *fund balance – total governmental funds* and *net position – governmental activities* as reported in the government-wide statements of net position. One element of that reconciliation explains that "capital assets are not financial resources and are not reported in the funds." The details of this \$11,966,445 difference are as follows:

Capital assets	\$ 19,070,593
Less: Accumulated depreciation	<u>(7,104,148)</u>
Net adjustment to increase <i>fund balance – total governmental funds</i> to arrive at net position – governmental activities	<u>\$ 11,966,445</u>

Another element of the reconciliation explains that "long-term liabilities" are not due and payable in the current period and, therefore, are not reported in the funds. The details of this \$623,676 difference are as follows:

Long-Term Obligations:	
Net OPEB Obligation	\$ (488,608)
Compensated absences payable	<u>(135,068)</u>
Net adjustment to decrease fund balance total governmental Funds to arrive at net position - governmental activities	<u>\$ (623,676)</u>

2. Reconciliation of Government-Wide and Fund Financial Statements (Continued)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-Wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this \$407,663 difference and other significant components of the difference are as follows:

Capital outlay	\$ 533,228
Depreciation expense	(787,417)
Other post employment benefit expense	(81,336)
Other items	<u>(72,138)</u>
Net adjustment to increase <i>net changes in fund balances – total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	<u>\$ (407,663)</u>

3. Stewardship, Compliance, and Accountability

A. Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds, except repayments of internal balances in the general fund are budgeted as an expenditure for budgetary purposes. Appropriations lapse at fiscal year end. The appropriated budget is prepared by fund, function and department. The City Manager may make transfers of appropriations within a department. Transfers between departments and other changes require City Council approval. The legal level of control is the department and fund level. The Council made supplemental appropriations during the fiscal year. Encumbrance accounting is not employed in governmental funds.

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2014

4. Detailed Notes on All Funds

A. Deposits and Investments

Deposits and investments at June 30, 2014 consisted of the following:

Pooled demand deposits	\$ 1,734,227
Pooled investments (including \$74,465 in fiduciary funds)	<u>17,435,873</u>
 Total deposits and investments	 <u>\$ 19,170,100</u>

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City's policy for deposits is that they will be made only in institutions in California, they shall be insured or collateralized with United States backed securities, and time certificates of deposit shall have a maturity of less than three years. At June 30, 2014, \$1,548,887 of the City's bank balances of \$1,798,887 was exposed to credit risk as follows:

Uninsured and collateral held by pledging banks agent but not in the City's name:	<u>\$ 1,548,887</u>
--	---------------------

Of the discretely presented component unit's bank balance of \$71,217, \$71,217 was insured and not exposed to credit risk.

Investments - At June 30, 2014, the City had the following investments.

Type Investment	Average Maturity	Fair Value
State Investment Pool (LAIF)	232 Days	<u>\$ 17,435,873</u>
		<u>\$ 17,435,873</u>

Interest Rate Risk - As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy limits the City's investment portfolio to maturities of five years or less.

Credit Risk - State law limits investments in various securities to certain level of risk ratings issued by nationally recognized statistical rating organizations. It is the City's policy to comply with State law as regards securities ratings. The City's investment in the State Investment Pool is unrated.

Custodial Credit Risk - For an investment, custodial credit risk is the risk that, in the event of the failure of a counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City's investment policy specifies that securities are to be held by a third party, other than the counterparty, in the City's name, whenever possible. The investment in the LAIF is not subject to custodial credit risk.

4. Detailed Notes on All Funds (Continued)

B. Receivables

Receivables as of year-end for the government's individual major and nonmajor funds in the aggregate, net of the applicable allowances for uncollectible accounts, are as follows:

	General Fund and Internal Service	Impact Fee Fund	Nonmajor Funds	Total Governmental	Water Wastewater	Nonmajor Proprietary
Accounts	\$ 34,330	\$ -	\$ -	\$ 34,330	\$ 766,703	\$ -
Taxes	567,081	-	-	567,081	-	-
Interest	4,026	1,484	274	5,784	3,695	346
Governments	64,476	-	51,859	116,335	-	39,886
Notes	-	17,265	-	17,265	-	-
Totals	\$ 669,913	\$18,749	\$ 52,133	\$ 740,795	\$ 770,398	\$ 40,232

C. Interfund Transfers, Receivables and Payables

1. The composition of interfund transfers of June 30, 2014 is as follows:

	General Fund	Non-Major Funds	Transit Fund	Water Enterprise Fund	Wastewater Enterprise Fund	Total Transfers
Transfers In:						
Transfers Out:						
General fund	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -
Nonmajor funds	168,689	-	1,200	-	-	169,889
Water/wastewater	-	-	-	-	-	-
Totals	\$ 168,689	\$ -	\$ 1,200	\$ -	\$ -	\$ 169,889

The primary purpose of the transfers out of the nonmajor funds was to provide \$168,889 for projects being conducted by the general fund.

2. The composition of internal balances was:

Receivable Fund	Payable Fund	Amount
Advances:		
Wastewater enterprise:		
Loan to general fund for capital project financing	General fund	\$ 487,755
Loan to water enterprise for the purpose of financing early retirement of installment agreement	Water fund	594,095
	Total	\$ 1,081,850

The City's general fund repaid \$162,585 to the wastewater enterprise in principal payments during the fiscal year, and the water enterprise repaid \$284,553.

Total	<u>\$ 55,578</u>	<u>\$ 63,211</u>	<u>\$ 55,578</u>	<u>\$ 63,211</u>	<u>\$ 53,336</u>

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2014

5. Other Information

A. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the City carries insurance. The City is a member of the California Joint Powers Insurance Authority (California JPIA). The California JPIA provides general liability insurance to the City with a \$50 million per occurrence and \$50 million per year aggregate limit. The City also participates in the Insurance Authority's workers compensation insurance program. The risk of loss is transferred to the California JPIA. The City is subject to retrospective premium adjustments under the arrangement.

The uninsured risk retained by the City is \$50,000 per incident for workers compensation claims, \$20,000 per incident for general liability claims, and \$5,000 per property damage claim. The Insurance Authority purchases commercial insurance for claims in excess of its deductible amounts which is \$5 million for liability and \$500,000 for workers compensation. Insurance transactions are accounted for in the general fund. Liabilities of the City are reported in the statement of net assets for the governmental activities when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate. Settlements have not exceeded coverage for each of the past three fiscal years. There were no changes in the balances of claims liabilities during the past two years.

B. Contingencies and Commitments

Litigation. The City is involved in litigation incurred in the normal course of conducting City business. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City's counsel the resolution of these matters will not have a material adverse effect on the financial condition of the City.

Grants and allocations. Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal and state government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

C. Operating Agreements

Water Supply Agreement. The City has an agreement with the Santa Ynez River Water Conservation District, Improvement District One, wherein the District and The Central Coast Water Authority constructed and operate a joint water treatment facility and water conveyance system. The Authority financed the plant and system by selling revenue bonds, and in 1997, issued \$198 million in refunding revenue bonds. The agreement is a take-or-pay obligation, and the City is obligated to pay amounts specified in the agreement whether or not water is treated or delivered. The amounts paid by the City are pledged by the Authority for repayment of the Authority's debt obligations. The City records these payments as operating expenses in its water enterprise fund.

Museum Agreement. The City has an agreement to provide financial support for a now privately owned non-profit museum. The City's commitment is to provide \$200,000 for operating cost from 2007 through 2015. The maximum support in any one year is \$25,000.

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2014

5. Other Information (Continued)

D. Public Employees Retirement System

Plan Description. The City of Solvang contributes to the California Public Employees Retirement System (PERS), a cost sharing multiple-employer, public employee, defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. PERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by the State statute and City ordinance. The PERS issues publicly available financial report that includes the financial statements and required supplementary information for the PERS. Copies of the PERS annual financial report may be obtained from their executive office, 400 "P" Street, Sacramento, California 95814.

Funding Policy and Annual Pension Cost. The contribution requirements of plan members and the City are established by and may be amended by PERS. Regular plan members are required to contribute 8.0 percent of their annual covered salary. The City is required to contribute at an actuarially determined rate. The current rate for regular employees is 18.775 percent of covered payroll. The Public Employee's Pension Reform Act (PEPRA), effective January 1, 2013, changed PERS contribution requirements and benefit provisions for new employees of the City. This changes employer contributions to 50% of the normal cost for new employees.

The City's annual pension cost for the most recent year three fiscal years for each plan is as follows

Three-Year Trend Information

Plan	Year Ending	Annual Pension Cost	Percentage of APC Contributed	Net Pension Obligation
<i>Regular employees</i>	6/30/12	\$ 318,999	100%	\$ -
	6/30/13	\$ 364,879	100%	\$ -
	6/30/14	\$ 396,379	100%	\$ -
<i>Safety employees</i>	6/30/12	\$ 2,142	100%	\$ -
	6/30/13	\$ 2,308	100%	\$ -
	6/30/14	\$ 2,775	100%	\$ -

E. Restricted Net Position and Fund Balances

The \$3,155,589 restricted amount in the governmental activities statement of net position represents amounts to be used only for specific purposes which restrictions are imposed by laws, formal agreements or other governments.

F. Other Post Employment Benefits

Plan Description. The city administers the City's retired employee's healthcare plan, a single employer defined benefit health care plan. The plan provides medical benefits to eligible retired employees and their beneficiaries. The City's plan is affiliated with the State of California PERS in so far as the City's health insurance premium payments are paid to the PERS. The PERS through an aggregation of single employer plans pools administrative functions in regard to purchases of commercial health insurance policies and coverage. City resolutions and regulations assign the authority to establish and amend benefit provisions to the City. A separate OPEB trust fund has not been established by the City.

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2014

5. Other Information (Continued)

F. Other Post-Employment Benefits (Continued)

Funding Policy. The contribution requirements of plan members and the City are established and may be amended by the City. The required contribution is based on a projected pay-as-you-go financing requirements, with additional amounts to prefund benefits as determined annually by the City Council. For the fiscal year ended June 30, 2014, the City contributed \$70,917 of current year premiums (100% of total premiums) and zero to prefund benefits. Plan members receiving benefits contributed no amounts of the total premiums.

Annual OPEB Costs and the NET OPEB Obligation. The City's annual other post employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of Governmental Accounting Standards Board Statement Number 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded liabilities over a period not to exceed 30 years. The following table shows the components of the City's annual OPEB cost for the year, the amounts actually contributed to the plan, and changes in the City's net OPEB obligation to the Plan:

Annual required contribution (ARC)	\$153,638
Interest on net OPEB obligation	19,345
Adjustments to the ARC	<u>(20,730)</u>
Annual OPEB expense	152,253
Contributions made	(70,916)
Change in net OPEB obligation	81,337
Net OPEB Obligation, beginning of year	<u>407,271</u>
Net OPEB Obligation, end of year	<u><u>\$488,608</u></u>

The City's annual OPEB Cost, the percentage of the annual OPEB cost contributed to the plan, and the net OPEB obligation for the last two fiscal years were as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage Contributed	Net OPEB Obligation
June 30, 2014	\$152,253	46.6%	\$488,608
June 30, 2013	\$161,929	52.1%	\$407,271
June 30, 2012	\$151,737	53.9%	\$329,776
June 30, 2011	\$207,180	35.1%	\$259,785

Funding Status and Funding Progress. As of July 1, 2014, the most recent actuarial valuation date, the plan was zero funded. The actuarial accrued liability for benefits was \$2,990,235. And the actuarial value of plan assets was zero, resulting in an unfunded actuarial liability (UAAL) of \$2,990,235. The covered payroll (annual payroll of active employees covered by the plan) was \$1,884,642 and the ratio of the UAAL to the covered payroll was 153.89 percent.

Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about the probability of occurrence of events into the future. Examples include assumptions about future employment, mortality, and health care trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2014

5. Other Information (Continued)

F. Other Post-Employment Benefits (Continued)

The schedule of funding progress, presented as required supplemental information, following the notes to these financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to actuarial liabilities for benefits.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the Plan as understood by the employer and the plan members) includes the types of benefits provided at the time of each valuation and the historical pattern of sharing benefits costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial liabilities and the actuarial value of plan assets, consistent with the long-term perspective of the calculations. In the July 1, 2014 valuation, the entry age normal actuarial cost method was used. The actuarial assumptions include a 4.75 percent investment rate of return based on assumed long-term return on plan assets or employer assets, as appropriate and a 3 percent assumed rate of inflation. This is based on the long-term historical returns for surplus funds invested pursuant to the California Government Code. An annual health care trend rate of 4 percent was also used in the valuation. There were no plan assets at the valuation date. The UAAL is being amortized as a level percentage of payroll over 28 years, the remaining closed amortization period at June 30, 2014.

G. Recently Issued Accounting Pronouncements

In June 2012, the GASB issued Statement Number 68, Accounting and Financial Reporting for Pensions. GASB 68 addresses accounting and financial reporting for pensions that are provided to employees of state and local governments. Under GASB 68, pension plan cost sharing employers, such as the City, will be required to recognize a liability for their proportionate share collective pension liability of all pool members and expands disclosure requirements. GASB 68 is effective for periods beginning after June 15, 2014. Management is currently evaluating the impact that adoption of GASB 68 will have on the City's financial statements.

H. Conduit Debt Obligation

The City, in July 2013, in order to provide financial assistance to private sector entities for the construction of facilities deemed to be in the public interest, entered into a Master Lease and Sublease Agreement with the Banc of America Public Capital Corporation and the Solvang Lutheran Home, Inc in the amount of \$3.2 million. The Agreement is a special arrangement of the City, payable solely by a pledge of rentals to be received from lease agreements between the parties and the Solvang Lutheran Home. The lease agreements do not constitute a debt or pledge of the faith or credit of the City, and accordingly have not been reported in the accompanying financial statements.

CITY OF SOLVANG
Budgetary Comparison Schedule - General Fund
Note to RSI
For the Fiscal Year Ended June 30, 2014

Note A. Explanation of Difference between Budgetary Inflows and Outflows and GAAP Revenues and Expenditures:

Sources/inflows resources:

Actual amounts "available for appropriation" from budgetary comparison schedule:	\$ 13,457,298
Differences - budget to GAAP:	
Transfers in are a budgetary resource but are not revenues for financial reporting purposes	(168,689)
The fund balance at the beginning of the year is a budgetary resource but is not a current year revenue for financial reporting purposes	<u>(6,267,915)</u>

Total revenues as reported in the statement of revenues, expenditures and changes in fund balances - governmental funds	<u>\$ 7,020,694</u>
---	---------------------

Uses/outflows of resources:

Actual amounts "total charges to appropriations" from the budgetary comparison schedule	\$ 6,267,814
Differences - budget to GAAP:	
Principal payments on internal balances are a use of budgetary resources but reduce fund liabilities for financial reporting purposes	(162,585)
Transfers to other funds are outflows of budgetary resources but are not expenditures for financial reporting purposes	<u>-</u>

Total expenditures as reported in the statement of revenues, expenditures and changes in fund balances - governmental funds	<u>\$ 6,105,229</u>
---	---------------------

Note B. Explanation of Differences Between Budgetary End of Year Fund Balance and GAAP End of Year Fund Balance:

End of year fund balance per budgetary comparison schedule	\$ 7,189,484
Repayments of internal balances are budgeted as expenditures and as an outflow of financial resources for budgetary purposes, but are not reported as expenditures for financial reporting purposes and instead reduce the fund internal liability balances	<u>162,585</u>
End of year fund balance as reported in the balance sheet for governmental funds and the statement of revenues, expenditures, and changes in fund balances	<u>\$ 7,352,069</u>

STATISTICAL SECTION

This part of the Government's comprehensive annual financial report presents detail information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents	Page
Financial Trends	81-85
<i>These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.</i>	
Revenue Capacity	86-93
<i>These schedules contain information to help the reader assess the government's most significant local revenue sources: taxes and water revenues.</i>	
Debt Capacity	94-97
<i>These schedules present information to help the reader assess the affordability of the government's current level of outstanding debt and the government's ability to issue additional debt in the future.</i>	
Demographic and Economic Information	98-99
<i>These schedules help the reader understand the environment within which the government's financial activities take place.</i>	
Operating Information	100-102
<i>These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.</i>

Source: County of Santa Barbara Assessor's Office

Note: In 1978 the voters of the State of California passed Proposition 13 which limited taxes to a total maximum rate of 1% based upon the assessed value of the property being taxed. Each year, the assessed value of property maybe increased by an inflation factor (limited to a maximum of 2%). With few exceptions, property is only reassessed as a result of new construction activity or at the time it is sold to a new owner. At that point, the property is reassessed based upon the added value of the construction or at the purchase price (market value) or economic value of the property sold. The assessed valuation data shown above (in our reports) represents the only data currently available with respect to the actual market value of taxable property and is subject to the limitations described above.

Total direct and overlapping debt			<u><u>\$ 13,350,477</u></u>

Source: California Municipal Statistics, Inc.

Notes:

(1) Overlapping governments are those that coincide, at least in part with geographic boundaries of the city. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the property taxpayers of the City of Solvang. This process recognized that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the property taxpayers should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(2) Percentage of overlapping agency's assessed valuation located within boundaries of the city.
